

RS232 CONTROLLED RADIO TRANSMITTER

Compatible with all FBC motorised blinds. Works in conjunction with FBC standard range of RTS handheld remote controls and RTS wall switches.

One RS232-RF unit can control 15 motors or 15 groups independently as well as all 15 motors or groups simultaneously via a unique addressing system.

Ideal solution to finished projects that require interface to AV or home automation systems.

Wire-free communication allows total control to each motor without the need of running extra cables, or controlling high voltage.

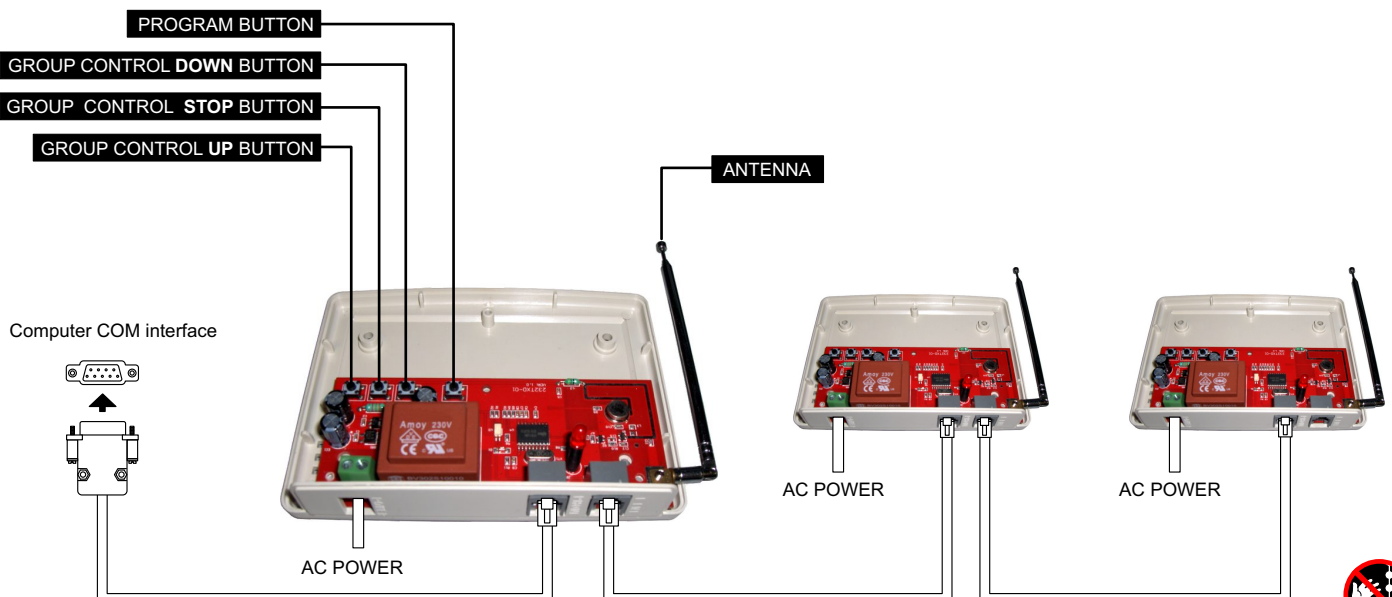

200 m RTS range in open space.

Easy test of communication by group control buttons (see below).

PARAMETERS

PART NO.	RATED VOLTAGE	WORKING TEMP	WORKING AMPS	LOADING POWER	FREQUENCY	CHANNEL NO.	OPERATION MODE
RS232-RF	230 VAC 50Hz	0°C ~ + 70°C	≤ 20 mA	≤ 20 mW	433.92 MHz	15 CHANNEL	PC CONTROL/ MANUAL
